

MyChart Bedside

A Patient's Guide to Staying Informed

MyChart Bedside is an application that allows patients more involvement with the care team during a Hospital admission. With an existing MyChart account, access MyChart Bedside by logging in to the MyChart mobile app on your personal device or a tablet provided by Licking Memorial Hospital (LMH).

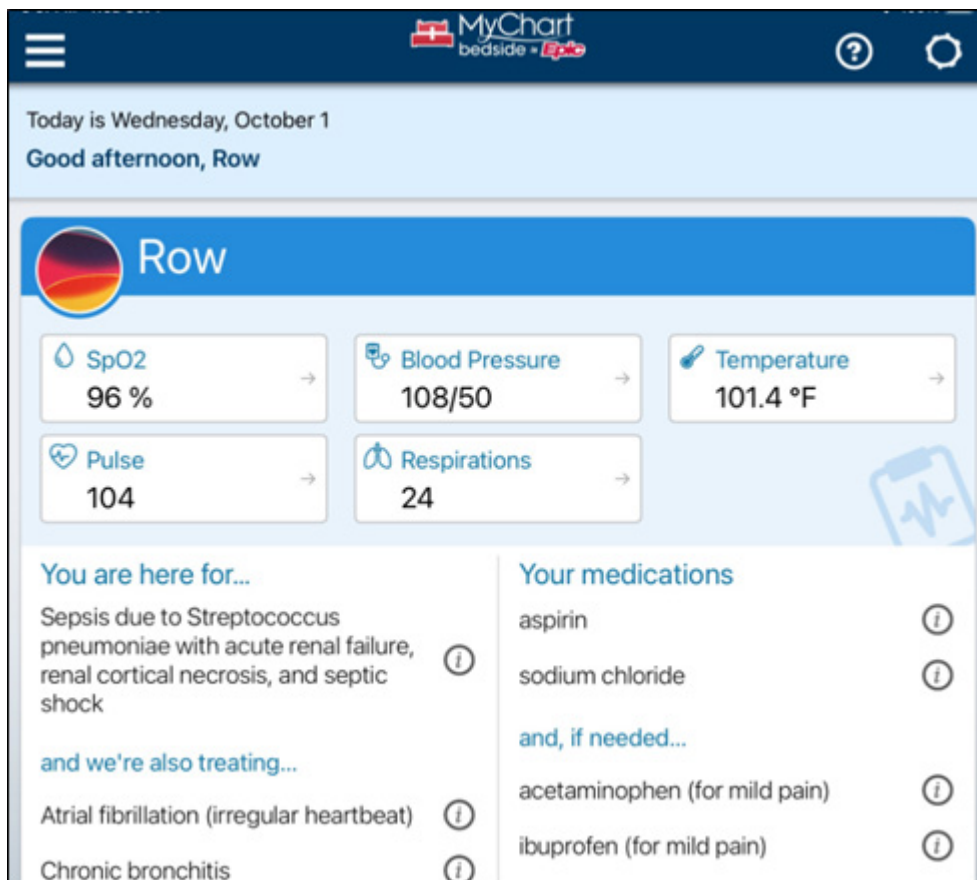

Set a PIN for secure access

On tablets provided by LMH, you will be prompted to create a code for secure access the first time you log in to MyChart Bedside.

1. Tap the  icon.
2. In the PIN section, tap the  to add or edit a PIN.
3. Enter a 4-digit code and tap **Accept**. Use this code to access MyChart Bedside each time.

Main screen

On tablets provided by LMH, the **Home** screen allows you to view your most recent vital signs, problem list, and medications. From this screen, tap each item to review more information on that topic.

Schedule

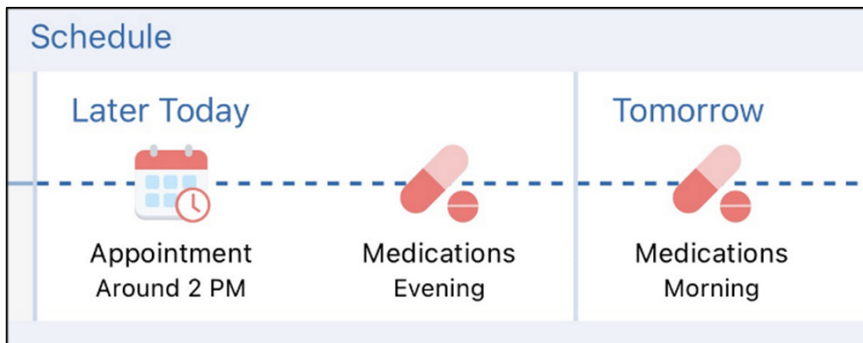

In the **Schedule** section, view your upcoming events, such as medication administrations and imaging appointments.

Add an event to your upcoming schedule

On tablets provided by LMH, you can inform the care team of other events, such as a visit from a family member, by adding the event to your schedule.

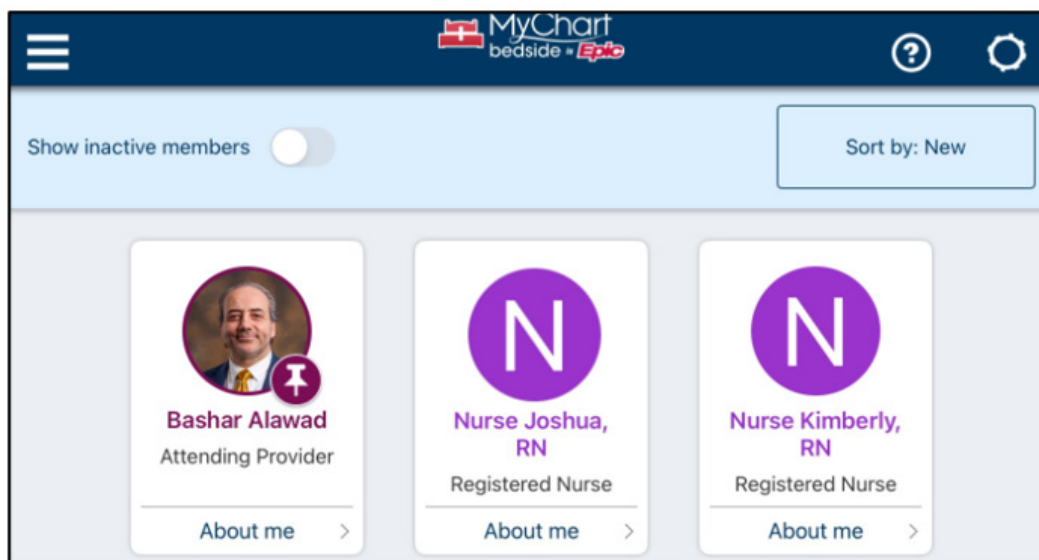

1. Tap **Add something new to my schedule**. In the “What’s happening?” field, enter a descriptive name for the event.
2. Specify the start and end time for the event.
3. Tap **Add**.

You and your care team can see the event you created under the **Schedule**.

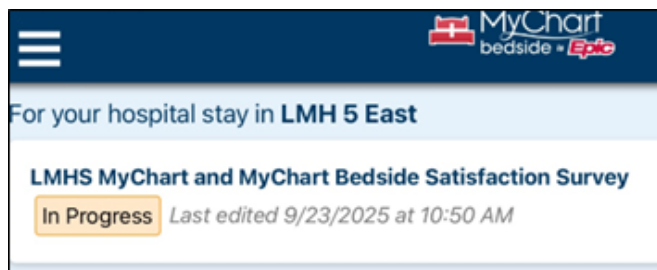

Care Team

Get to know more about your care team in the **Care Team** section. Tap a care team member’s name to view their role.

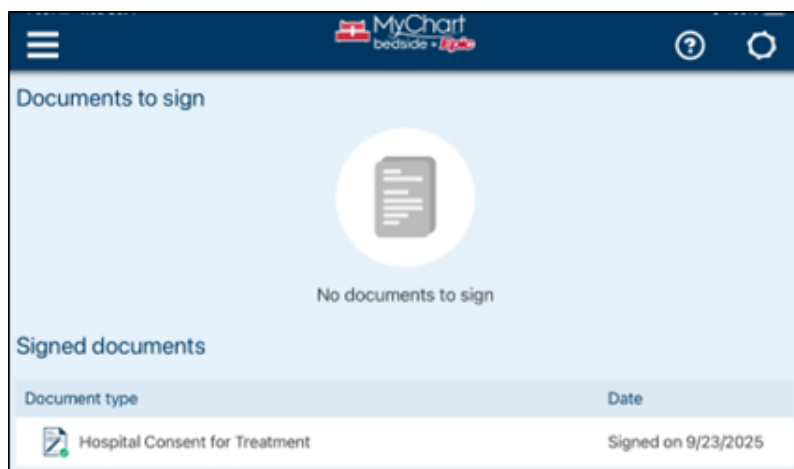

Questionnaires

LMH appreciates patient and proxy feedback. This survey will capture your comments and concerns.

My Documents

Under **My Documents**, sign new consents or review previously signed consents during this visit.

Notes

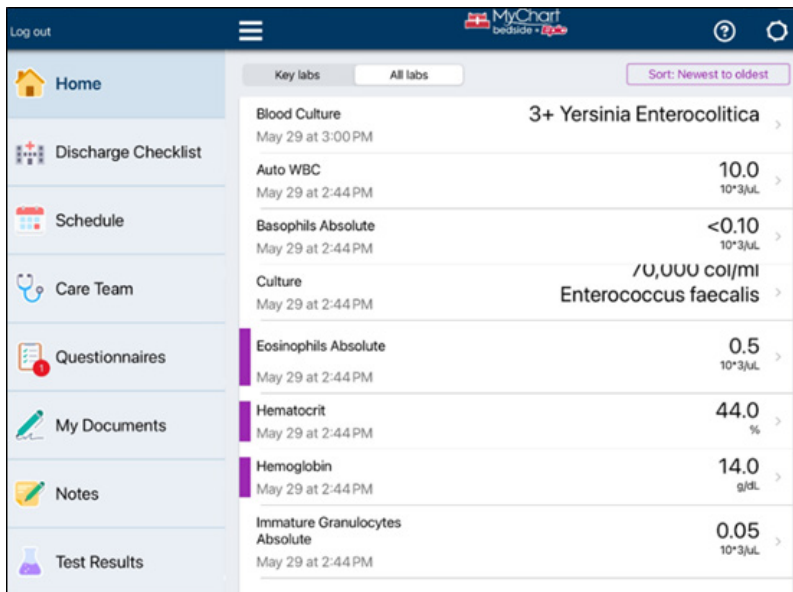

You can review provider notes and also create your own notes such as to-do lists or reminders.

1. Go to the **Notes** feature and choose **Add text note** to create your personalized note.
2. Tap **Save**.

Test Results

Using the Bedside tablet, review **Test Results** to view up-to-date health information at a glance. Tap on a lab result to see more details and trends over the course of your Hospital admission.

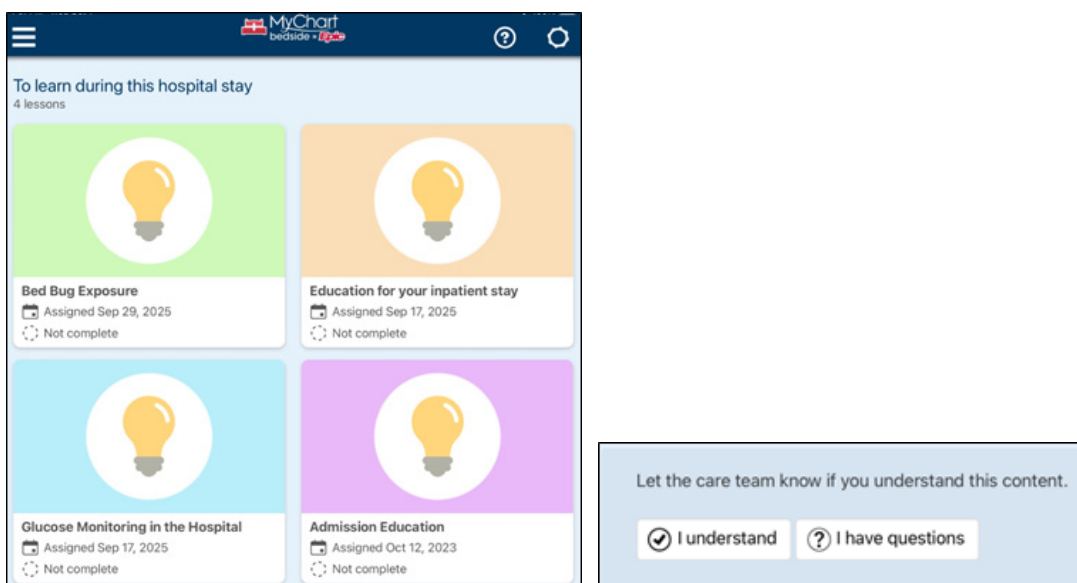

Key labs	All labs	Sort: Newest to oldest
Blood Culture	3+ Yersinia Enterocolitica	
May 29 at 3:00 PM		
Auto WBC	10.0	10 ³ /uL
May 29 at 2:44 PM		
Basophils Absolute	<0.10	10 ³ /uL
May 29 at 2:44 PM		
Culture	/0,000 col/ml	
May 29 at 2:44 PM	Enterococcus faecalis	
Eosinophils Absolute	0.5	10 ³ /uL
May 29 at 2:44 PM		
Hematocrit	44.0	%
May 29 at 2:44 PM		
Hemoglobin	14.0	g/dL
May 29 at 2:44 PM		
Immature Granulocytes Absolute	0.05	10 ³ /uL
May 29 at 2:44 PM		

Education

Review education assigned by the care team. You may see general information about a diagnosis, tips for managing your diagnosis on your own, or information about prescribed medications.

1. Go to the **Education** feature and tap the name of the lesson.
2. Review the education materials. Scroll to the bottom of the page, and if you have no questions about the education material, tap **I understand**.
3. If you would like to speak to the care team about a topic, tap **I have questions**. The care team will follow up with you.

Discharge Checklist

Select the **Discharge Checklist**. You will see when your discharge is in progress.

After Visit Summary

From the **Visits** page, the After Visit Summary will show important information about the care you received including instructions, medications, and follow-up appointments for post-visit care.

Friends & Family Access

Send invitations to friends and family members from the Bedside tablet to allow them to review your medical information during your stay.

1. Go to the **Friends & Family Access** section and tap **Invite friends or family**.
2. Enter the invitee's email address and specify whether you would like to give the invitee **Full** or **Clinical** access to your chart.
3. Review the terms and conditions. Select the checkbox to agree.
4. Tap **Send invite**.

To remove access from a friend or family member:

1. Go to the **Friends & Family Access** section, and in the box with the person's name, tap **Revoke**.
2. Tap **Revoke** in the window that appears to confirm.

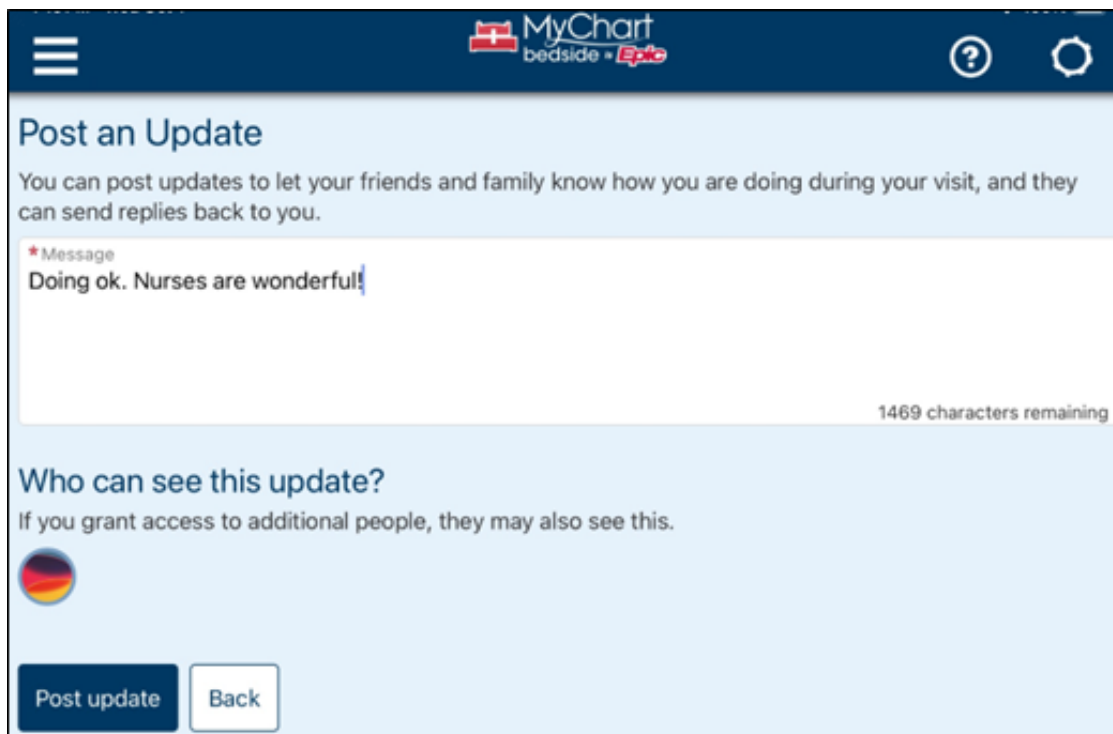

Friends & Family Updates

If you have friends and family added as users on your mobile device or are using a Bedside tablet, share updates through the **Friends & Family Updates** feature.

To add an update:

1. Go to **Friends & Family Updates** and tap **Post an update**.
2. Type the update you would like to share.
3. Tap **Post Update**.

Users can see your updates and post comments and reactions.

The screenshot shows the 'Post an Update' interface in the MyChart bedside app. At the top is a dark blue header with a hamburger menu icon, the MyChart bedside logo, and help and settings icons. Below the header, the title 'Post an Update' is displayed. A descriptive text states: 'You can post updates to let your friends and family know how you are doing during your visit, and they can send replies back to you.' A text input field contains the message 'Doing ok. Nurses are wonderful!'. To the right of the input field, it says '1469 characters remaining'. Below the input field, the section 'Who can see this update?' is shown, with the text 'If you grant access to additional people, they may also see this.' and a circular privacy selector icon. At the bottom, there are two buttons: 'Post update' and 'Back'.
